

# JOB DESCRIPTION

## Female Gynaecology Consultant (with laparoscopic experience) & OB/GYN Consultant, Abu Dhabi (1113OBGY)

MediRec P.C. on behalf of its client, a well-known hospital based in Abu Dhabi (UAE) is seeking 2 Female Gynecology Consultants (1 with laparoscopic experience).

### The Hospital:

The roles are based a new state of the art multi-specialty Maternity and Paediatrics Hospital that is to resume operations in the immediate future.

### The position:

You will carry out obstetrician and gynaecologic health care, both on an in-patient and out-patient basis, for those patients designated as being entitled to such care by.

- Will perform professional duties as an obstetrician/gynaecologist.
- Providing surgical care both in the operating room and in the O.P.D. for gynaecologic and obstetric conditions for both emergency and planned procedures.
- Covering the Delivery Room to include admitting patients, reviewing their history, planning a course of action, performing both spontaneous and operative deliveries, and interacting with midwives.
- Covering the Emergency Service by promptly responding to calls for consultation.
- Providing out-patient care in Clinics, when so assigned by the head of department.
- Working evenings, nights, week-ends and holidays according to a schedule compiled by the head of department.
- Doing and interpreting ultrasound examinations both in hospital and on an out-patient basis.
- Interpreting fetal heart rate monitoring and taking appropriate action.
- Carrying out formal and informal consultations from physicians from other departments.
- Attending committee meetings when so assigned by the Head of department.
- Interacting with patients' families to keep them informed of the patient's condition, changes in condition and plans.
- Monitors clinical and other established indicators to ensure on-going quality assurance.
- Strictly observes organization's medical regulations and policies especially those related to infection control, patient safety, patient assessment and patient care.
- Carrying out other duties when requested by the Head of department.

### Your profile:

- You are an MD, Specialist Obstetrics/Gynaecology, having completed the necessary residency in this field. You hold a specialist diploma after having received training in a respected European or American medical institution with appropriate specialty training.

# JOB DESCRIPTION

Board Certification from the American Board, FRCS or an equivalent board is mandatory, if not Arabic Board (in line with HAAD).

- A minimum of 3 – 8 years of clinical experience following your residency training is necessary to be considered for the job. You can rely on a vast number of on-the-job experiences in which you have been working with a wide variety of patients who had differing symptoms and conditions.
- You understand and are able to speak English fluently; knowledge of Arabic is an advantage.
- You have always kept up with new studies, findings, and trends by attending workshops or seminars additional to licensing requirements.
- Besides your technical competencies you also have leadership qualities. You like to share knowledge and experience, stimulate cooperation and adapt easily to a new environment.
- You have a thorough knowledge of medical ethics.

## The Offer:

- Working Days: 6 days in a week mostly in split shifts
- All new staff will be given full orientation to the hospital
- 24 month contracts (renewable)
- Tax Free Salary (+ benefits), so you will be able to save the majority of your salary
- Incentive scheme
- Free Medical Coverage for self and family
- Single/Family contract
- Housing Accommodation
- 30 days of Annual Leave per year plus 4 days paid leave for attending CMEs/ Conference
- Annual vacation air tickets to point of origin (on contract renewal)
- Recreation Services
- Availability of on Job training & courses
- Licensing process can take from 4 – 6 months
